

Dear Hr,

As New Opportunities Company looks to grow its operations throughout Bangalore New Startup, my experience in data modeling and visualization, AI, ML, DL, Chatbot as well as my background in programming, would make a great fit for the Data Scientist position.

I am passionate about statistics and analytics, which led me to pursue a Bachelor of Computer Science, followed by a Bachelors of Computer application, Bachelour of Arts (Economics), and Certificate in Data Science and Data Analytics, Machine Learning operation. I recently completed an internship at pantech as a Data Analyst, Data Science, Artificial Intelligence, Machine Learning, Deep Learning Chatbot where I was responsible for analyzing data to drive optimization and improvements of products. With work part time my Self startup Jalops in MNFC Related Food Detecated with Agriculture Department Research. I learned valuable critical thinking and problem-solving skills that would make me a great addition to the Madhura Automobiles Company team.

I have extensive experience in Java, Python, and R, as well as and Infogram. As a passionate Data Scientist, I Have the experience needed to help Karma lab Company AS Possibility solutions grow. I am dedicated to continuously learning and enhancing my skills. I admire XA Group Company's dedication to data-informed product building, and I would be thrilled to join the team. I have attached my resume, which further outlines my education and experiences.

Please feel free to contact me if you have any questions. I appreciate your time and consideration, and I hope to hear from you soon.

Sincerely, [JATIN PARMAR.]
